

Sun's First Center of Excellence for Open Virtual Worlds

St. Paul College

Saint Paul College

Sun Microsystems is a leading contributor to the research, development and deployment of open source solutions for “immersive education” with Project Wonderland.

Sun is proud to open it's first Sun Center of Excellence at St. Paul College in Minnesota.

In partnership with Sun, Virtual Learning Labs was founded in St. Paul, Minnesota to be dedicated to the emerging field of real-time virtual education platforms - allowing organizations to immediately participate in the emerging world of teaching, learning and collaborating on the 3-D Web.
